

QHM Parent Participation Hours

Each year we ask that families help support the program through participation hours. In order to help us correctly credit you for all of your support, please take a moment to complete the form below and turn it in to the office.

Anything that you do that helps with the quality or beauty of the program counts toward parent participation hours. We require 14 hours per school year per child for two parent families and 7 hours per child for one parent families. We take a parent participation deposit twice a year which is equal to half your hours owed time \$15 per hour. As hours are turned in, you will be credited \$15 per hour which will appear on your monthly statement along with total hours still due.

Child's Name _____
